

Leisuretime Pool Pump

“ The range of Leisure Time pool pumps have been purposefully designed to provide maximum performance and corrosion resistance at a realistic cost. ”

Self-Aligning Barrel Unions

Onga's unique 5 degree self-aligning barrel unions make pipework connection a breeze.

Electrical approvals

Rest easy knowing your Leisure Time pool pump has passed all stringent Australian Standards for safety and is approved for installation within the wetted zone of the pool area.

Elevated motor foot

Incorporating an elevated mount into the pump design keeps moisture well away from the motor.

Corrosion resistant endshield

Unique electro-phoretic plated cast iron endshield for better corrosion protection extending the life of the pump.

Large hair and lint pot with see through lid

Easy to clean large hair and lint pot with a clear lid so you can check at a glance whether or not it is full.

Low friction lint pot O-ring

Having a low friction teflon impregnated self-lubricating O-ring on the lint pot means you only need to tighten the lid by hand. No tools are necessary and because you only tighten by hand, removing the lid is also a simple task.
